

SAMPLE GENERAL HOSPITAL

DEMO CITY - FICTIONAL HEALTHCARE FACILITY

HOSPITAL DISCHARGE SUMMARY

SYNTHETIC TEST DOCUMENT - NOT FOR CLINICAL USE

PATIENT INFORMATION

Patient name	Aarav Sharma (Fictional)
Patient ID	DEMO-PAT-001
Age / Sex	28 years / Male
Date of admission	08 October 2026
Date of discharge	09 October 2026
Treating doctor	Dr. Mira Rao (Fictional)
Department	General Medicine
Discharge status	Stable

FINAL DIAGNOSIS

Seasonal Allergic Rhinitis (J30.2)

The patient presented with frequent sneezing, watery nasal discharge, nasal congestion, and itchy eyes, consistent with seasonal allergic rhinitis.

CLINICAL SUMMARY

The patient reported symptoms beginning approximately three days before admission. Clinical examination showed nasal irritation and congestion. No breathing difficulty or wheezing was documented during the examination.

The patient was clinically stable at discharge and was advised to follow the medication schedule and discharge instructions below.

MEDICATIONS PRESCRIBED AT DISCHARGE

1. Cetirizine 10 mg Tablet

- Dose: 1 tablet (10 mg)
- Route: Oral
- Frequency: Once daily
- Time: 9:00 PM
- Start date: 10 October 2026
- End date: 14 October 2026
- Duration: 5 days
- Special instruction: May cause drowsiness. Avoid driving if sleepy.

2. Sodium Chloride 0.65% Nasal Spray

- Dose: 2 sprays into each nostril
- Route: Intranasal
- Frequency: Twice daily
- Times: 8:00 AM and 8:00 PM
- Start date: 10 October 2026
- End date: 16 October 2026
- Duration: 7 days
- Special instruction: Use gently and follow the spray instructions.

DISCHARGE AND HOME-CARE INSTRUCTIONS

- Avoid exposure to dust, smoke, and known environmental triggers.
- Keep the living environment clean and well-ventilated.
- Take the prescribed medicines according to the written schedule.
- Do not independently change the prescribed medication doses.
- Contact the treating clinic if symptoms persist or worsen.

WARNING SIGNS

Seek urgent medical attention if any of the following occur:

- Difficulty breathing or severe breathlessness.
- Sudden swelling of the face, lips, or tongue.
- Severe or rapidly worsening symptoms.

FOLLOW-UP INSTRUCTIONS
